

# ASEAN x EU meet-UP DAY

~ Business matching to enhance EU-Japan business cooperation with ASEAN ~

**Date** 14 November 2024 10:30-17:00

**Venue** Culttz Kawasaki (17th Kawasaki International Eco-Tech Fair)

**Theme** The 17th Kawasaki International Eco-Tech Fair will commemorate the 100th anniversary of Kawasaki City with a Special International Side Event, the “ASEAN x EU meet-UP Day”. Participants will be able to meet government officials from ASEAN countries and European companies doing business in Japan and ASEAN through a multilateral matchmaking event. Register now to boost your company's overseas expansion.

**Capacity** 60 people

## Organisers

## Programme

### 10:30 - 12:05 Presentation Session

Government officials from ASEAN countries will speak about the situation in their countries and the types of technologies that they are looking for. In addition, European companies will pitch their technologies and solutions and talk about their experience and plans overseas and in particular in ASEAN countries.

### 13:05 - 14:10 Discussion Session

Based on the presentations given in the morning, the audience is invited to participate in a discussion on the challenges of introducing technologies from other countries, like Japan and Europe, to Cambodia and the Philippines, as well as the position of support organisations.

### 14:30 - 17:00 Matching Session

Participating companies can introduce their technologies and services directly to the guest speakers from ASEAN countries and European companies at a dedicated matchmaking space. These individual meetings will give the opportunity to introduce businesses and discuss collaboration.

## More information

Please refer to the event page for more details on the programme and on the ASEAN and EU participants.

Participation is  
free of charge

**Deadline: 7 November**

# ASEAN x EU meet-UP DAY

List of government representatives and companies

## ASEAN Government representatives

H.E. Mr. Sunit Paksamay, Under Secretary of State, Ministry of Agriculture, Forestry, and Fisheries (MAFF), Cambodia

We have a strong interest in environmentally friendly technologies and services that promote climate-resilient agriculture, and ensure sustainable water and soil management. We believe that innovations in renewable energy, waste reduction, eco-friendly agro-processing, and sustainable aquaculture and forestry are essential for Cambodia's environmental protection and sustainable development.

Mr. Ed Karlon Rama, Program Director, Bantay Dagat Commission, Cebu, Philippines

We are particularly interested in environmental technologies, including solid waste management, waste-to-energy solutions, marine pollution control, artificial reefs, small-scale fishery support, coastal heavy metal removal, community-based sewage treatment, and renewable energy. We are excited to explore how these solutions can contribute to a healthier environment and a sustainable future for Cebu City.

## EU companies

**AC Biode** (Luxembourg & Japan) Mr. Tadashi Kubo, Co-Founder & CEO

**We decompose and recycle various types of plastic and organic wastes in a sustainable way**

- 1) Our technology can help recycle plastic waste and organic waste which were previously difficult to recycle
- 2) We would like to meet companies interested in demonstration projects or in scaling up the chemical recycling of plastic and organic wastes

**ALGAESYS** (Portugal) Mr. James Lander, Co-Founder & Director Business Development

**We treat municipal & industrial wastewaters which can be reused for irrigation and industrial boilers**

- 1) We seek complementary technologies and systems to complete circular water management solutions
- 2) We seek partners for whom we can fill a gap and provide a value-added component to their value chain
- 3) We can bring partners into a new markets like Southeast Asia where we are already active

**FACIL'iti** (France) Ms. Sawako Nagai, Country Manager

**Our solution facilitates website browsing for individuals with visual impairments, cognitive disorders, and motor difficulties**

- 1) We aim at raising awareness about the importance of digital accessibility
- 2) We would like to partner with Japanese companies in Japan and expand to Southeast Asia with them

**METRON** (France) Mr. Kevin Lesaulnier, General Manager & Head of Sales North Asia

**Our software solution monitors companies' energy efficiency and help them optimise their energy use**

- 1) We would like to support Japanese companies in their decarbonisation efforts
- 2) We are already present in Southeast Asia and we are looking to further expand there with Japanese partners

Free admission

第17回 川崎国際環境技術展  
The 17th Kawasaki International Eco-Tech Fair

Register here

The Kawasaki International Eco-Tech Fair will showcase a wide range of environmental technologies addressing challenges in Japan and abroad, including cutting-edge technologies that aim at solving global environmental problems.
